INCIDENT OBJECTIVES (ICS 202)

1. Incident Name: <p style="text-align: center;">Woolsey</p>	2. Operational Period: <table style="width: 100%; border: none;"> <tr> <td style="width: 33%;">Date From:</td> <td style="width: 33%;">11/14/2018</td> <td style="width: 33%;">Date To:</td> <td style="width: 33%;">11/15/2018</td> </tr> <tr> <td>Time From:</td> <td>0700</td> <td>Time To:</td> <td>0700</td> </tr> </table>	Date From:	11/14/2018	Date To:	11/15/2018	Time From:	0700	Time To:	0700												
Date From:	11/14/2018	Date To:	11/15/2018																		
Time From:	0700	Time To:	0700																		
3. Objective(s): <u>Management Objectives</u> -Provide for emergency personnel and public safety at all times by ensuring hazards and risks are identified, communicated and mitigated through the hazard risk assesment process. -Protect property, improvements, and infrastructure. -Ensure an appropriate evacuation and repopulation plan is in place and communicated. -Foster and strengthen relationships by recognizing the needs of all unified, assisting and cooperating agencies. -Accurately track costs and provide fiscal accountability while ensuring the needs of the incident are met. -Ensure timely and accurate information is coordinated and provided to the public and cooperators.																					
<u>Control Objectives</u> -Keep the fire North of the Pacific Ocean -Keep the fire South of Highway 118 -Keep the fire East of South Reino Road & Sycamore Canyon Road -Keep the fire West of Topanga Canyon Boulevard																					
General Situational Awareness: Steep and rugged terrain, critically dry and receptive fuel beds, active area for fire history and drought stressed trees. The fire area has a significant history for firefighter entrapments and injuries.

INCIDENT Weather Forecast

FORECAST NO: 5 NAME OF FIRE: Woolsey

PREDICTION FOR: 24 hour SHIFT UNIT: VNC/CalFire

SHIFT DATE: 11/14/18-11/15/18 (0700-0700) SIGNED:

Rich Thompson
Incident Meteorologist

TIME AND DATE
FORECAST ISSUED: 11/13/18 @ 1900

WEATHER DISCUSSION: ...RED FLAG WARNING THROUGH 500 PM THIS AFTERNOON...

Moderate Santa Ana wind will continue across the area this morning, before diminishing in strength this afternoon with some weak southerly/onshore winds possible near the coast. Relative humidity will drop into the single digits again today. So, the combination of gusty northeasterly winds and very low relative humidity will bring continued **CRITICAL FIRE WEATHER CONDITIONS** to the area through the afternoon. For tonight, the winds will still be northeasterly, but weaker than previous days. Relative humidity recovery tonight may be a little bit better also.

On Thursday, weak northeasterly winds in the morning will become weakly southerly/onshore in the afternoon. This will bring slightly cooler temperatures and a slight increase in minimum relative humidity. For Friday through the weekend, weak onshore flow will prevail. This will result in noticeably cooler temperatures, higher relative humidity and the possibility of the return of some coastal clouds and fog.

WEATHER FORECAST:

WEATHER: Partly cloudy. Areas of smoke.

TEMPERATURES: Max: 72-78.
Min: 46-56.

HUMIDITY: Min: 6-12%.
Max: 15-25%.

20 FT WINDS:
RIDGETOP - 0700-1200: Northeast 15-25 MPH Gust 35 MPH.
1200-2200: Northeast 8-15 MPH Gust 20 MPH.
2200-0700: Northeast 10-20 MPH Gust 30 MPH.

SLOPE/VALLEY - 0700-1200: North to northeast 10-20 MPH Gust 30 MPH.
1200-2100: Variable 5-15 MPH. Local NE Gusts to 25 MPH.
2100-0700: North to northeast 8-15 MPH Gust 25 MPH.

EXTENDED FORECAST:

Thursday: Weak diurnal flow is anticipated with offshore flow at night and onshore flow during the day. Temperatures will be a bit cooler and relative humidity will be higher with better overnight recoveries.

Friday/Saturday: Weak southerly/onshore wind can be expected in the late morning through early evening hours with light/variable flow during the overnight hours. The increase in onshore flow will result in cooler temperatures as well as higher relative humidity. Overnight humidity recovery will also improve.

FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 5	TYPE OF FIRE: Wildland Fire
FIRE NAME: Woolsey	OPERATIONAL PERIOD: 24hr 11/14 (0700-0700)
DATE ISSUED: 11/13	TIME ISSUED: 2100
UNIT: VNC/LAC	SIGNED: //Troy Velin// 

INPUTS

WEATHER SUMMARY

Red Flag Warning through 5:00 PM Today

- Today is a transition day! Slow return of on shore flow beginning around lunch.
- See attached Incident Weather Forecast in IAP

OUTPUTS

FIRE BEHAVIOR

GENERAL:

Fuels in the area consist of cured annual and coastal grasses and coastal chaparral and sage. Rains in early October did not have a lasting effect and fuels are critically dry. The Topography is steep, broken and drainages are predominantly arranged in alignment with critical winds. Fire behavior in areas sheltered from the wind or decreases in off shore flow will transition rapidly to terrain runs. Long range spotting will continue to be a threat.

South of Hwy 101, many of the drainage bottoms are deep enough to be out of the wind. Expect to find higher humidity's along with areas of shaded fuels. These areas will challenge firefighters with hold over fires and mop up.

Forecasted Indices for Fire Area

Area	Fuels	DFM (10hr)	LFM	BI
Santa Monica Mts (S of Hwy 101)	Chaparral	3%	65%	125 (Critical is 94)

SPECIFIC:

Branch I

No growth expected, monitor for hot spots.

Branch III/IV

Hot rolling material will continue to be a threat in this area. Fire crossing Malibu Canyon near the tunnel will be sheltered from the wind NE winds, expect upslope runs to the East and aided by battling weak on shore flow beginning around lunch. Head Fire ROS 82 ch/hr, FL 10'. Backing Fire ROS 5 ch/hr, FL 5'

Branch V

No growth expected, monitor for hot spots.

Branch VI

The fire will continue to back toward Big Sycamore, Sycamore and Potrero roads. The Fire is burning in relatively light fuels, with little residency time. The path of travel early in the day will be flanking fire down canyon towards the coast mostly sheltered from the NE winds. Around lunch that will begin to transition to backing fire as onshore winds begin to return. In the absence of wind expect upslope runs. Head Fire ROS 82 ch/hr, FL 10'. Backing Fire ROS 5 ch/hr, FL 5'

Branch VII/VIII/IV/X

No growth expected, monitor for hot spots.

AIR OPERATIONS:

Generally clear. Decreasing off shore flow will allow smoke to return to the area.

SAFETY

Pay attention for increasing winds or winds that change direction.

If you aren't thinking about your safety zone, escape route, changing weather or fire behavior who is?

Woolsey Incident Safety Message

November 14, 2018

Everyone is a Safety Officer

INCIDENT: Woolsey

DATE: 11-14-18

TIME: 0700– 0700

MAJOR HAZARDS and RISKS: EXTREME FIRE BEHAVIOR – STEEP and ROCKY TERRAIN – NARROW ROADWAYS to FREEWAYS – BLOWING and ROLLING MATERIALS
ALL PPE – ALL the TIME – On the FIRELINE – NO EXCEPTION!

FIRE ORDER of the DAY – Maintain prompt Communications with your forces, your Supervisor, and adjoining forces.

This fire has demonstrated RAPID RATES OF SPREAD. Expect the same today!

Review Wildland Urban Interface Watchout Situations- IRPG Page 12

Identify Escape Routes and Safety Zones of adequate size. As your position changes insure you identify new safety zones and escape routes.

Perform your Risk Assessment BEFORE engaging and identify decision points for DISENGAGING. IRPG Page 1

Confirm radio frequencies and that you know how to operate your radio. Develop backup procedures.

Provide for frequent rest breaks and adequate hydration. Monitor yourself and those around you for heat related illnesses. DON'T LET THE TEMPERATURE FOOL YOU!

Drive with caution on narrow dusty roads and when in neighborhoods. Remember drive defensively!

Document all tailgate safety briefings on your 214's (to include subject matter) for each operational period

Watch Out Situation of the Day

5. UNINFORMED ON STRATEGY, TACTICS AND HAZARDS

Escape Route/Safety Zone Checklist

Escape Routes:

- *More than one escape route
- *Scouted – soils, vegetation, slope
- *Timed – slowest person, fatigue, dozer speed
- *Marked – flagged for day and night use

Safety Zone:

- *Survivable without a shelter
- *Natural – clean burn, water, bare soil/rock
- *Manmade – constructed sites, roads
- *Scouted for size and hazards
- *Close enough considering escape time needed

Remember and Follow:

- *The 10 Standard Fire Orders
- *The 18 Situations That Shout Watch Out
- *The Common Denominators of Fire Behavior on Tragedy Fires
- *The Downhill Line Construction Guidelines

INCIDENT SAFETY ANALYSIS

WOOLSEY FIRE

DIV	HAZARDS	MITIGATIONS
All	Extreme Fire Behavior	<ul style="list-style-type: none"> • LCES • Risk Assessment IRPG
All	Steep Terrain & Rolling Debris	<ul style="list-style-type: none"> • Maintain 8'-10' spacing when working & walking. • Don't work above any personnel • Be aware of travel times to Safety Zones
All	Fatigue Management	<ul style="list-style-type: none"> • Get adequate rest.....follow the 2:1 work/rest guidelines • Get proper hydration & nourishment, take frequent breaks on fireline
All	Communication	<ul style="list-style-type: none"> • Use human repeaters when necessary • Review radio communication plan prior to committing resources
All	Driving & Traffic	<ul style="list-style-type: none"> • Use spotters and honk horn when backing • Always use headlights and seatbelts • Use chock blocks, emergency brakes, and turn wheels in high bank • Watch for wildlife on Hwy and at sunrise and sunset • Expect the unexpected while driving
All	Structure Defense	<ul style="list-style-type: none"> • Review "Wildland Urban Interface" Watchouts, IRPG page 12 • Use "Structure Assessment" checklist, IRPG pages 13 – 17 • Maintain egress to Safety Zone
All	Mechanized Equipment	<ul style="list-style-type: none"> • Create positive communication with operator, hand, radio, etc • Always work 100' or greater from dozer, depending on vegetation height • Know Capability of Dozer
All	Air Ops	<ul style="list-style-type: none"> • Communications • Leave area for VLATS when needed • ID Drop Areas
All	Power Lines	<ul style="list-style-type: none"> • Treat All Power Lines Down as "LIVE" • Mark areas with Caution Tape when possible • Notify Branch/Division of locations
All	Complacency	<ul style="list-style-type: none"> • Expect the unexpected • Monitor each other
All	Hazard Trees	<ul style="list-style-type: none"> • Look up, Look Down, Look Around • Flag appropriately all hazard trees
All	Structure Overhaul	<ul style="list-style-type: none"> • Wear appropriate PPE to include respiratory protection as needed • Wear eye protection when appropriate

STATUS	
Incident Start Date: 11/08/2018	Incident Start Time: 2:30 PM
Cause: Under Investigation	Acres:
Containment:	Total Personnel:

MEDIA – The California State Penal Code Section 409.5(d) allows the news media to enter scenes of disaster, riot or civil disturbance. Properly identified members of the news media should not be restricted from entering locations specified within the code. However, this does not include crime scenes, private property and does not imply that the news media may interfere with incident operations while they are in the areas of concern. More information can be found [here](#).

CAL FIRE SOCIAL MEDIA POLICY – When assigned to a CAL FIRE incident, you will adhere to the CAL FIRE Social Media Policy, Section 0691. You can find further information about the CAL FIRE Social Media Policy [here](#).

PHOTOGRAPHS AND VIDEOS OF INCIDENT – We are in a new era of media. Media no longer means news/broadcast industry, but now refers to anyone that has the capability to shoot video, photographs and post them onto social media sites in a matter of minutes. Unfortunately, we have seen some instances of photographs or videos that have depicted unsafe, unprofessional or embarrassing circumstances which are a serious breach of ethics. When this happens, it reflects poorly on all that are attached to this incident. Posting an inappropriate video, photo or blog comment could expose oneself to unwanted ramifications. It may be unsafe to shoot photos or video and a firefighter who is concentrating on a camera loses their situational awareness.

The Public Information Office would like copies of the video and pictures that you safely took while not in an emergency situation, fire suppression activity or in an overhead assignment. Bring your video and pictures to the Public Information trailer; they will be reviewed and possibly uploaded to our many CAL FIRE social media sites. Remember, we don't want photographs or videos that depict unsafe, unprofessional or embarrassing circumstances, which are a serious breach of ethics.

LOST AND FOUND – The Information Section will manage lost and found items for the incident. If you have lost an item please leave your contact information and what you have lost at the Information Section. If you have found an item on the incident, bring the item to the Information Section with your contact information as well. All items left in Lost and Found will be turned over to the local CAL FIRE San Luis Obispo Unit.

MAIL SERVICE – The Information Section will assist you in getting items mailed from the incident as well as receiving items whether it is letters or packages.

TRAINING SPECIALIST MESSAGE

ALL ASSIGNED TRAINEES

Before you begin the demob process you need to come and close out with the Training Specialist.

Please come to the Training trailer first.

The Training Specialist is available immediately following the morning Operations Briefing.

Training Specialist trailer is located behind the copy trailer. For any questions feel free to call.

Peer Support

We may not recognize it now, but we are all part of an incident that may potentially have a lasting impact.

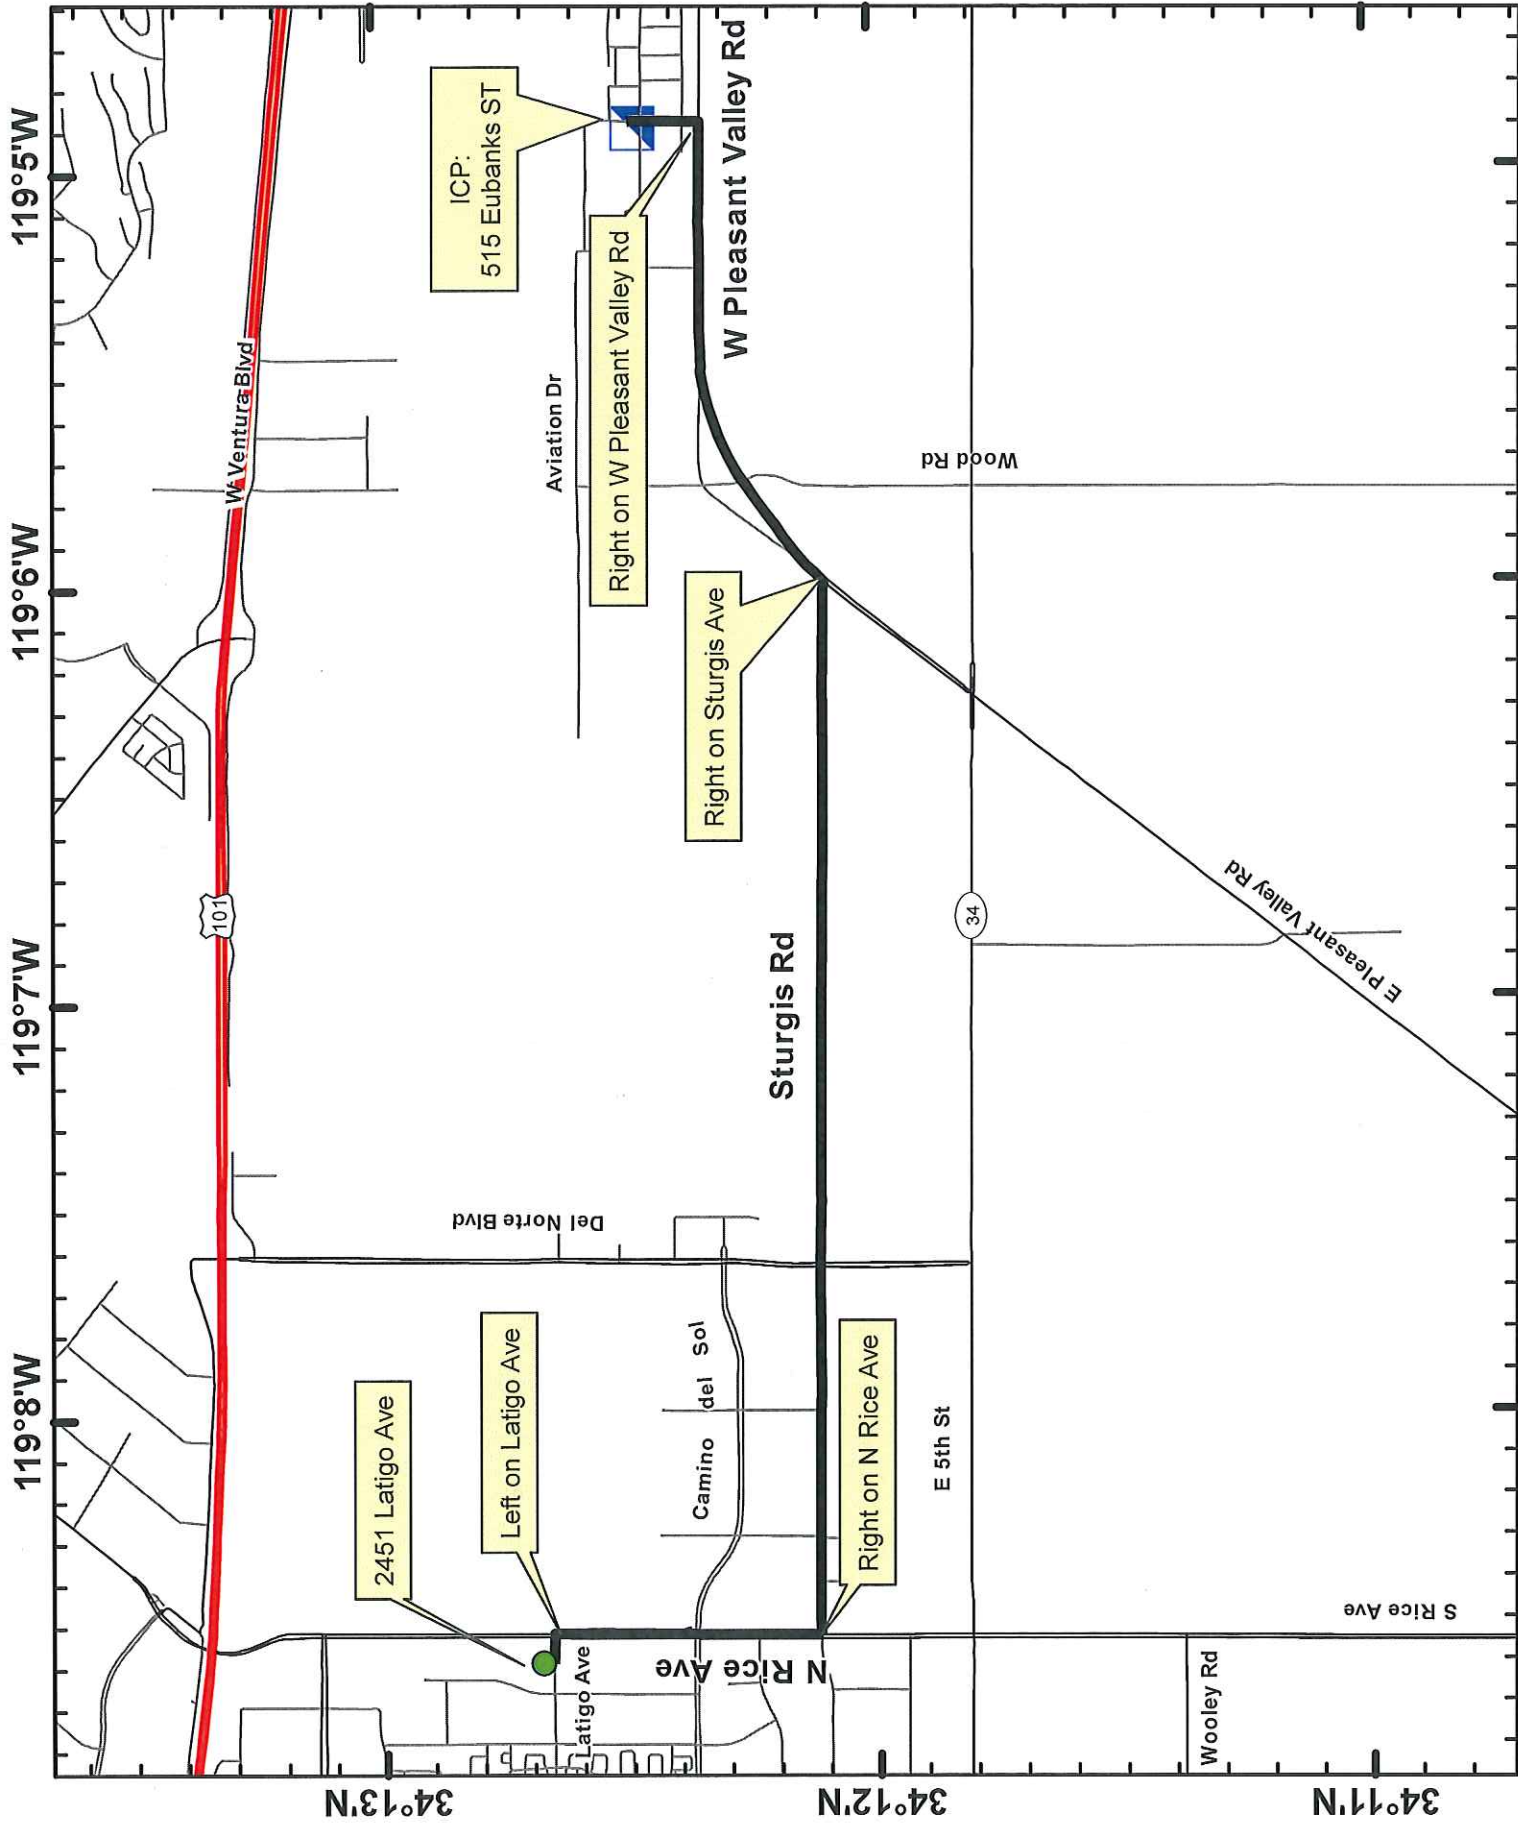

We are local, state and federal fire agencies, law enforcement, EMS, private contractors, public utilities and military working together for a common mission.

There are many kinds of trauma, grief and losses present in these incidents, and these factors may potentially have an impact on us, no matter who you are or what your background. These include:

- Successive large scale incidents.
- Local first responders who are personally impacted by the events.
- Incidents with national exposure, political implications and high media presence.
- Evacuations and rescues in high intensity environments.
- Destruction of residences, commercial buildings, critical infrastructure and community landmarks.
- Repopulation and the anguish we witness from the community.
- Providing emotional support for the community and each other.
- The time spent away from our families with the holidays approaching.

We all need to stick together, take care of ourselves and each other. We know how to watch out for each other on the fire line for our physical safety. The same is necessary for our emotional and psychological safety.

Come by the Peer Support trailer, we are on the grass adjacent to the briefing area.
